Popular Solutions	24
Popular labeling solutions for different applications.	
Identification Labels	26
The types of labels available in the LABEL SAFE System.	
Label Holders & Accessories	32
Purpose-built industrial label holders & accessories, ideal for everything from lubricant bulk storage through to the fill point.	

WHY USE LABEL SAFE®?

LABEL SAFE is the only industrial grade labeling system in the world that enables accurate lubricant identification from bulk storage to the fill point. In the process providing:

- **5S** – color-coded, identification and order.
- **LEAN** – the right lubricant in the right fill point.
- **Right to Know** – ensuring operators are aware of what they are handling.

The patent pending fully integrated system is comprised of two core components:

- **Labels** – available in various sizes, styles and materials.
- **Label Holders** – many different types and combinations to address the challenges of securing labels in an industrial environment.

Innovative, practical and durable, this fully integrated and color-coded labeling system also:

- **Ensures** the right lubricant goes into the right machine every time.
- **Improves** OSHA compliance.
- **Accommodates** inclusion of MSDS information at all steps of the lubrication process.
- **Enables** consistent identification of bulk storage, intermediate containers and point of use.
- Is **flexible and suitable** for multiple workplace applications.
- Is **industrial grade, high quality** and suitable for outdoor use.
- **Improves** productivity and efficiency.
- **Increases** bottom line savings.

Where can LABEL SAFE be used?

Fluid Identification from Bulk Storage to the Point of Use

Bulk Storage

Bulk Storage

The first step in the chain of custody. Ensuring that Lubrication Technicians can clearly identify the lubricant they need.

Solutions range from simple adhesive labels through to solutions that include complete MSDS information.

Transfer

Transfer

Cross contamination of lubricants can be just as damaging as dirt and water. Match the transfer container label to the bulk label to eliminate the potential for cross contamination.

Once the lubricant is in the transfer container the importance of identification is not reduced, in fact OSHA requires transfer containers to be labeled to ensure that employee's Right To Know entitlements are addressed.

Fill Point

Fill Point

Getting the right lubricant into the right fill point (contaminant free) is one of the simplest ways to reduce maintenance and operating costs.

Matching the container label to the fill point label is the final step.

LABEL SAFE EVALUATION KIT

The LABEL SAFE Evaluation Kit is designed to enable first hand evaluation of the LABEL SAFE unique lubricant labeling system on site.

The Kit includes a comprehensive selection of the products, including:

- **Label samples** – various materials, sizes and designs.
- **Label Holder samples** – pre configured solutions for different labeling requirements and parts for further experimentation.
- **Guidance Sheets** – best practice suggestions for common labeling applications.

Experience the:

- **Versatility** – with multiple options for most situations.
- **Fit** – with different size components to suit your differing equipment needs.
- **Durability** – of our heavy duty industrial grade components.

GREASE GUNS

Components

Adhesive Labels page 26, 27, 28, 29

Advantages

- Adheres to side of grease gun.

Components

Label Pocket page 32
Label Wrap page 37
Water Resistant Label page 27

Advantages

- Wraps comfortably around grease gun and can be easily removed for cleaning.
- Consider the Bonded Wrap if a more permanent fit is required.

Components

Color-Coded Grease Guns page 16

Advantages

- The GREASE SAFE Color-Coded Grease Guns come pre-colored with color identification text and are designed to accommodate both of the above solutions where additional identification information is required.
- Clear Grease Guns also available.

GREASE FILL POINTS

Components

0.5" Adhesive Label page 21, 29, 30, 35
Grease Fitting Protector page 21, 35
Lens page 21, 34, 35

Advantages

- Protects from contamination and ensures accurate identification.
- Consider adding a leash & pocket for additional information.

OIL FILL POINTS

Components

Leash page 36
Label Pocket page 32

Advantages

- Easily secures to taps and other fittings.
- Water Resistant.

Components

0.5" Adhesive Label page 21, 29, 30, 35
ID Tab page 34
Washer page 34
Lens page 21, 34, 35

Advantages

- Heavy duty solution with discrete label and color-coding. Fits by means of washer with standard BSP sizes up to 1".
- Consider using swivels to improve access/visibility or a leash & pocket for additional information.

Components

0.5" Adhesive Label page 21, 29, 30, 35
ID Tab page 34
Washer page 34
Lens page 21, 34, 35
Leash page 36
Card Labels page 26, 27, 30

Advantages

- Heavy duty plastic cards for the toughest work environments. Over laminated for additional protection these cards are similar to a credit card in size and composition and can be fixed with a LABEL SAFE Leash or with heavy duty double sided tape.

LABEL SAFE LABELS

LABEL SAFE has developed a comprehensive suite of industrial grade labels to suit your lubricant labeling program. Labels are available in a variety of sizes, materials and styles to provide the flexibility needed for the challenges that exist in industrial environments.

Custom Labels

Label Safe™

We have engineered custom labels and label systems for some of the world's largest companies. If the identification solutions above do not meet your specific requirements talk with one of our representatives to find out how Fluid Defense can help by designing and delivering your required labels to meet your unique needs.

ADHESIVE LABELS

Description

LABEL SAFE Adhesive labels are made of heavy duty Polyester and have a permanent adhesive. The label material can resist water and most lubricants. Apply to a clean flat surface for best long term adherence.

WATER RESISTANT PAPER

Description

With a paper-like texture enabling easy writing, these heavy duty labels have built-in protection against the rigors of industrial work places. Use with LABEL SAFE pockets and other label holding components for attachment to bulk storage, transfer containers and fill points.

LAMINATED CARD

Description

Similar to credit cards in size and weight, these highly durable cards are made for the toughest work environments. Over laminated for additional protection of printed information these cards can be fixed with a LABEL SAFE leash or with heavy duty double sided tape.

LABEL SIZE MATRIX

A variety of sizes to suit easy attachment of labels in the workplace.

SHAPE AND DIMENSION	APPLICATION	QUANTITY	WATER & TEAR RESISTANT	POLYESTER ADHESIVE	LAMINATED CARD
 2" x 3.5"	Popular and practical sized label that provides for detailed information and fits most labeling applications.	Sheet of 10	●	●	
 2" Circle	Ideal for GREASE SAFE Cartridge Protection Tubes or applications where a smaller space is available, yet detail is still useful.	Sheet of 12	●	●	
 3.25" x 3.25"	A larger label for areas where greater visibility is required.	Sheet of 6	●	●	
 0.5" Circle	Designed for LABEL SAFE Grease Fitting Protectors, and ID Tabs. These labels provide room for specific identification information.	Sheet of 180		●	
 0.5" x 5.5"	Curved to fit LABEL SAFE Color-Coded Drum Rings.	Sheet of 20		●	
 2.2" x 3.4"	Providing the same level of detail as the 2" x 3.5" labels, this size is unique to the laminated card labels.	Single Labels			●

STYLE	2" X 3.5"	2" CIRCLE	3.25" X 3.25"	DRUM RING	0.5" CIRCLE	2.2" X 3.4"

LABEL SAFE WIZARD

With the patent pending LABEL SAFE Wizard system, you can create simple or detailed Fluid Identification labels tailored specifically to your unique fluid requirements.

Combine with any OIL SAFE, LABEL SAFE and GREASE SAFE systems for managing and accurately identifying fluids from bulk storage to intermediate container to the point of use. Supports reliability improvement and safety compliance.

Consider using a color and / or shape combination to uniquely identify your lubricant or fluid.

CUSTOM LABELS

In addition to the innovative LABEL SAFE Wizard, Fluid Defense Systems can custom create nearly any label for your lubricant identification requirements. Tell us more about your requirement so we can work with you to deliver a cost effective industrial solution.

HOW DOES LABEL SAFE WIZARD WORK?

Custom ID Labels. You Create. We Deliver.

LABEL SAFE Wizard is a simple and intuitive web based platform designed to support online creation of labels and provide rapid supply of those labels to your door. A simple, fast and immediate solution to your fluid identification needs LABEL SAFE Wizard labels are designed to ensure that the right fluid goes into the right machine every time.

Working in tandem with the LABEL SAFE range of label holding accessories LABEL SAFE Wizard labels form a fully integrated, color-coded solution for identifying bulk storage, intermediate containers and points of use on plant and machinery. Satisfying **Right to Know, 5S and LEAN** reliability objectives.

STEP 1: Choose a label type

Using the Fluid Defense website webstore, select the style, size and material of label appropriate for your application.

STEP 2: Choose a color and shape

Effective and accurate identification is best achieved through the use of prominent and unambiguous visual indicators. LABEL SAFE Wizard label templates support the creation of a labeling system that uses color and shapes as the corner stone for identification and ensuring operators accurately match a lubricant to a fill point.

STEP 3: Complete your label

Complete some or all of the remaining identification fields in the label template to provide a greater level of information at the fill point or on a container. Particularly useful to help with OSHA **Right to Know** identification requirements.

STEP 4: Review and place the order

Once satisfied with the label design and contents, determine the quantity required and add to the cart for fast and efficient ordering.

STEP 5: Label Holders & Accessories

Make sure you have the right label holders to secure and protect your label.

LABEL HOLDERS

Label Holders are core components of the LABEL SAFE system and are used for protecting, presenting and enabling attachment of labels.

LABEL POCKET

Protects and secures labels

Pockets are available in 2 sizes, and each pocket is double sided and accommodates content labels, card stock and other LABEL SAFE labels and provides ample space for comprehensive identification information on transfer containers, bulk storage or fill points.

Made to withstand tough outdoor conditions, these pockets are a powerful tool in ensuring your employee's right to know is satisfied.

PART

200101 – 2" x 3.5"

200102 – 4" x 3.25"

The larger size pocket is particularly effective for storing MSDS sheets as well as larger size labels

The 2" x 3.5" size pocket can be used in conjunction with Label Leashes and is a highly effective, economical way to label fill points

Leashes - see page 36

Utilize Label Pockets with LABEL SAFE Magnets as a reliable way to label bulk storage

Magnets - see page 36

Label Pocket and Label insert into Frame

LABEL POCKET FRAME

Industrial grade color-coded Label Frames protect and identify Label Pockets

A highly visual, simple and reliable system for ensuring the right lubricant goes into the right machine every time. Connect frames to equipment via LABEL SAFE Magnets, Clamps, Swivel Joints or Leashes, or on to OIL SAFE containers via LABEL SAFE Drum Rings.

- Fits 2" x 3.5" Label Pocket
- Industrial grade - protects Label Pockets and suitable for outdoor use.
- Highly visual for color-coding pockets - available in 10 colors.
- Enables the fixing of LABEL SAFE Magnets to the rear of Frames for quick and replaceable labeling to metal surfaces such as oil barrels, drums, totes, plant and equipment.

COLOR-CODED DRUM RING

LABEL SAFE Color-Coded Drum Rings fit securely and easily to all OIL SAFE Containers and provide clear and effective color-coding.

Adhesive labels are also available to enable more detailed identification. Options include “Contents” label with space for written information, or a custom label using the LABEL SAFE Wizard.

- Available in 10 colors.
- Industrial grade with UV stabilizers and anti-static additives.
- Recessed panel for Drum Ring label placement.
- A hook for additional labeling options with leashes and pockets.
- Enables the quick and easy removal of the entire labeling assembly from the drum when the drum requires cleaning - unlike adhesive sandwich bag labeling concepts that leave messy residues and require constant replacement at the time of drum servicing or re-labeling.

Recessed panel for label placement

Hook for hanging additional info

PART # 201001

LOCKABLE DRUM RING

Designed for OIL SAFE containers, the industrial-grade Drum Ring provides a secure way of attaching Label Pockets & Frame.

Use with multiple Label Pockets and color-coded Frame to identify container and lubricant, along with other information including MSDS and Right to Know.

- Designed specifically for OIL SAFE containers, attaches frame & multiple label pockets.
- Ring held into place by secure locking lug and OIL SAFE Lid.
- Enables the quick and easy removal of the entire labeling assembly from the drum when the drum requires cleaning - unlike adhesive sandwich bag labeling concepts that leave messy residues and require constant replacement at the time of drum servicing or re-labeling.

Slides over neck of OIL SAFE drums

Affix Label Pocket or Label Pocket Frame

LABEL HOLDERS

Label Holders are core components of the LABEL SAFE system and are used for protecting, presenting and enabling attachment of labels.

ID TABS

Ideal for Fill Points

LABEL SAFE ID Tabs provide durable labeling and fill point identification options when mated with a color-coded LABEL SAFE Fill Point ID Washer.

Available in 10 colors, identification can be achieved through simple color-coding or enhanced by the addition of a label into the label recess, or hanging by leash.

Pre-printed labels are available for ID Tabs (see page 29) or create your own with the LABEL SAFE Wizard at www.labelsafewizard.com.

Swivel the position of your ID tab without removing it

Easily hang additional information from ID Tab

Clear Protective Lens
Part# - 290999 (bags of 100)

Lens fit securely into the top of Grease Fitting Protectors and ID Tabs providing a protective barrier above labels

FILL POINT ID WASHERS

LABEL SAFE Fill Point ID Washers enable durable and comprehensive color-coded identification of machine oil and grease fitting fill points.

Washers can be used alone for simple color-coding, or combined with LABEL SAFE components for more information at the point of use.

Washers are temperature and chemical resistant, and are available in 10 colors and 6 sizes to fit standard NPT and BSP threads.

- Temperature resistant, Chemical resistant.
- Enables attachment of ID Tab which makes oil fill points easier to find on equipment.
- Swivel Joint Accessory enables rotation into desired position for improved access and visibility.
- Enables attachment of Label Clamps to provide for comprehensive identification information.
- Available in 10 colors, enabling color-coding of fill points.
- 6 BSP sizes - 1/8", 1/4", 3/8", 1/2", 3/4", and 1".

GREASE FITTING PROTECTORS

LABEL SAFE Grease Fitting Protectors save you the cost of equipment failures related to contamination or misapplication.

Grease Fitting Protectors provide a secure seal over most common grease fittings providing excellent protection against contamination. Furthermore, with 10 colors and space for labels the Grease Fitting Protectors clearly identify what grease is required for the fitting.

These innovative, new LABEL SAFE patented products provide a number of benefits over traditional Zerk protectors, including:

- Available in 10 colors.
- Recessed head for label placement.
- Custom labels for Grease Fitting Protector with LABEL SAFE Wizard (see page 30, 31).
- New design means easy grip and removal of cover — even when wearing work gloves.
- Durable industrial grade materials.
- Available in various sizes and in pre-configured kit formats.
- Makes grease fittings easy to find.

CLEAR PROTECTIVE LENS - Part # 290999

These lens fit securely into the top of Grease Fitting Protectors and ID Tabs providing a protective barrier above labels. Supplied in bags of 100.

GREASE FITTING PROTECTOR KITS

Enables you to dedicate a specific color to a specific grease.

LABEL SAFE Grease Fitting Protector Kits come in 3 color kits consisting of Blue, Purple and Red as well as 6 color kits consisting of; Black, Blue, Mid Green, Purple, Red and Yellow. This enables you to dedicate a specific color to a specific grease. Grease Fitting Protectors also come in various sizes to suit most common grease fittings. See charts below for part numbers and sizes.

LABEL HOLDER ACCESSORIES

Purpose-built industrial label holder accessories, ideal for everything from lubricant bulk storage through to fill point labeling.

LABEL LEASH

For attaching Label Pockets to containers, machinery, piping and other fittings.

- Use individually or combine to create a longer leash.
- Can be easily removed and reused.
- Industrial grade.

PART #
202001

SWIVEL ID TAB

Enables the position of the ID Tab to be adjusted for improved visibility or access to the fill point.

The LABEL SAFE Swivel Joint ID Tab mates with any size LABEL SAFE Fill Point ID Washer and an ID Tab to provide durable color-coded identification and labeling at fill points.

PART #
205001

POCKET FRAME LEASH

Designed specifically for keeping the LABEL SAFE Pocket Frame and the Label Pocket tight & secure.

This Industrial grade, reusable Leash is designed for securing LABEL SAFE Pocket Frames to items such as: OIL SAFE color-coded Drum Rings, LABEL SAFE ID Tabs and Grease Fitting Protectors.

- Attach Pocket Frames to containers, machinery, pipe and fittings.
- Are for individual use only, i.e. DO NOT join with other leashes to make a longer leash.
- Can be easily removed and reused.

PART #
202002

SWIVEL POCKET FRAME

Provides detailed identification information at the fill point.

The Swivel Joint enables easy adjustment of the Pocket Frame position for improved visibility or easier access to the fill point.

PART #
205002

HIGH STRENGTH MAGNETS

Affixes frame to bulk fluid barrel or other metal surfaces.

High-strength, custom-built magnets fix label pockets and color-coded label frames to bulk fluid barrels, totes, storage racks, machinery, equipment, or any other metal surface. This enables operators to find what they need when they need it, while ensuring no misapplication of fluids occurs.

- High strength, Industrial grade.
- Snaps securely into label frame.
- Custom-built.

PART #
203002

ID WASHER LABEL CLAMP

Enables comprehensive data matching to machinery fill points.

ID Washer Label Clamp fits to LABEL SAFE color-coded Fill Point ID Washer for comprehensive identification of equipment fill-points, air breathers, auto-lubers etc. Clamp in a Label Pocket and Label Pocket Frame, if desired.

- Snaps onto locating lug of LABEL SAFE ID Washer.
- Accommodates Label Pockets and Frame.
- Enables comprehensive information to be visible and accessible at the actual point of use.

204001

Houses LABEL SAFE Label Pocket & Label

Utilize Wrap on oil barrel pumps and other cylindrical devices, such as pipes.

LABEL WRAP

One of the greatest challenges in lubricating with grease guns is identifying what grease is inside the gun. The GREASE SAFE color-coded grease guns and clear grease guns are an excellent starting point; but when more information is needed the LABEL SAFE Label Wrap enables secure attachment of a label and protects the label from damage.

Clear and durable the Label Wrap uses a LABEL SAFE Label Pocket (page 32) to place and provide the first layer of protection for the label. In addition to grease guns, Label Wraps can also be used on pipes, auto-lubricators, air breathers, spray cans, barrel pumps and other suitably sized cylindrical objects.

LABEL SAFE Label Wrap is available in two styles. The **Removable** version clamps into place but can be easily removed for reasons such as cleaning the gun or changing the label. The **Bonded** version clamps on and is securely held in place by adhesive strips.

Once the grease gun is labeled with a Label Wrap simply match the label on the Grease Gun to the label on the cartridge or pail to make sure the right grease is loaded into the gun, then match the label on the gun to the label on the grease fitting to ensure that the right grease goes in the right equipment.

Label Wraps:

- Enable identification of Grease Gun contents.
- Are clear and durable.
- Come in two versions – Removable & Bonded.
- Can be applied to a variety of cylindrical objects.

PART

206000 – Removable

206001 – Bonded

LABEL SAFE BINDER

PART # 270100

This sturdy three ring binder is Ideal for storing LABEL SAFE label sheets, ensuring that the labels are protected and readily accessible.

LABEL SAFE PARTS CADDY

Organize your LABEL SAFE holders, labels and installation tools into this versatile tool box for easy transfer to equipment for installation.
